

RM100A

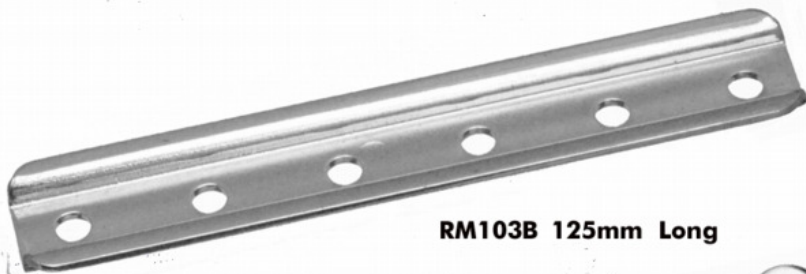

RM100B

- RM100A** As above with knurled locking screw. (Weight – 38g).
- RM100B** Similar to RM100A with spring loaded stop. (Weight – 42g).
- RM102** 22mm External Track Stop with knurled locking screw. (Weight – 14.8g).
- RM102A** 22mm External Track Stop with spring loaded pin. (Weight – 92g).
- RM103** 22mm External Track for goosenecks and sheeting slides. Lengths – 124mm, 250mm or lengths to 1.8m. (Weight – 76g/250mm).
- RM103LR** As above with lugs to suit 25mm diam. to 89mm sections. (Weight – 114g/250mm).
- RM106** Track Slide with end lug and screw stop to suit RM103. (Weight – 18g).
- RM106A** As above, with spring loaded stop. (Weight – 23g).

RM679

- RM84** Pin Type Gooseneck with slide to fit RM103 external track. Screwed pins used for attaching sail and downhaul. Pin 9.5mm. (Weight - 140g).
- RM85** Pin Type Gooseneck with slide to fit RM103 track. Spring loaded plunger pin locates slide in position. Pin 9.5mm diam. (Weight - 164g).
- RM677** Boom Gooseneck Tube takes 1/2" diam Pin.
- RM678** Boom Gooseneck. Tube diam. to suit 3/8" diam. (9.5mm) Gooseneck Pin. (Weight - 38g).
- RM679** As RM678 with 3/8" diam. Thrust Pin.
- RM680** Fixed Band Pin Type Gooseneck to fit masts 60mm to 90mm. Pin 9.5mm diam. (Weight - 144g).
- RM681** Fixed Band Pin Type Gooseneck to fit masts 60mm to 90mm. Pin 9.5mm diam. with 6.3mm shackle pin tack fitting. (Weight - 172g).
- RM682** Boom pin and yoke only.
- RM683** Pin Type Gooseneck with slide to fit sailtrack 9.5mm diam. and larger. Used when sail is not attached to gooseneck and downhaul is controlled solely by Cunningham eye. (Weight - 114g).
- RM684** Pin Type Gooseneck with slide to fit sailtrack 9.5mm diam. and larger. Sail and downhaul secured with screwed pins in swivelling yokes. (Weight - 156g).

HALYARD LOCKS

RM59 Halyard Locking Plate — single slot.
(Weight — 11.7g). Hole centres 28mm.

RM91 Halyard Locking Plate — single slot.
(Weight — 11.2g). Hole centres 47mm.

JAMB CLEATS

RM172 Fairlead with "Vee" Jamb. Serrated edges provide non-slip holding for rope up to 6mm diam.
(Weight — 15g).

TRACK SLIDES

RM615 Sail Track Slide. 16mm wide, same applications as RM617. (Weight — 26g).

RM617 Sail Track Slide. 22mm wide, for attaching sails at high load points, such as at extremities of mast and boom. (Weight — 36g).

RM360 Boom Outhaul Slide. Spring loaded locking pin. Fits 22mm external track. (Weight — 54g).

RM361 Boom Outhaul Slide. Double purchase pulley allows easy adjusting. Fits 22mm track.
(Weight — 80g).

MAST SHROUD PLATES & TANGS

RM74

RM75

RM74

Mast Yoke to fit masts 51mm diam. (Weight – 26g).

RM75

Mast Yoke to fit masts 57mm diam. (Weight – 30g).

RM77

Mast Halyard Yokes 63mm to 76mm diam. masts. (Weight – 36g).

RM79HD

Halyard Yoke to suit 76mm to 89mm diam. mast, heavy duty. (Weight – 80g).

RM89

Small Triangular Shroud Plate — single bolt hole. Two shroud holes. (Weight – 24g/pr).

RM92

Mast Tang with clevis pin 4.7mm. (Weight – 32g).

RM117

Tangs suitable for attaching shrouds, halyard blocks, 16mm x 70mm. (Weight – 12.8g).

RM447

Boom Block Hanger — four claw light gauge. (Weight – 40g).

RM448

As RM447 — heavy gauge. (Weight – 54g)

RM47

Boom Block Strap — 5mm holes. Fits most small booms. (Weight – 13.2g).

RM198

- RM48** Vernier Adjuster – allows 51mm adjustments in 3mm increments. (Weight – 36g). Breaking Strain – 800kg.
- RM48A** Vernier Adjuster – 178mm min. to 267mm max. length, makes up required length on repaired shrouds, etc. (Weight – 64g).
- RM48B** Vernier Strap Screwed section of 48A converts RM48 to RM48A. (Weight – 44g).
- RM48C** Vernier Adjuster – 89mm to 127mm range with direct end fastening by means of forked end to chainplates or adjustable Gunwale slides RM98A. (Weight – 50g). Breaking Strain – 800kg.
- RM144** Channel Section Jib Rack 87mm long. 6mm diam. pin. (Weight – 50g).
- RM145** Channel Section Jib Rack 178mm long. 6mm diam. pin. (Weight – 98g).
- RM146** As RM144 with stem fitting and provision for fitting of towing ring. (Weight – 84g).
- RM197** Stay Adjuster 171mm max. centres – 6mm holes at 13mm centres – supplied without clevis pins. (Weight – 76g).
- RM198** Stay Adjuster – as above 95mm max. length. (Weight – 52g). Supplied without clevis pins.
- RM320** Diamond Stay Anchorage Adjuster – Allows liberal adjustment eliminating need for rigging screws. Body is easily attached to mast. Locknut maintains adjustment. Pin 5mm diam. (Weight – 22g).

RM40

RM41AL

RM41

RM38

Minature – light loads as Burgee Hoists, Trapese Cords and Rubbers, etc. (Weight – 2.8g).

RM40

Small Eye Clip takes 5mm Shackle Pin, Jib and extra attachments smaller class boats. (Weight – 11.2g).

RM41

Rope Clip takes 32mm cir. rope for Halyards, Water Ski Ropes, etc. (Weight – 16g).

RM41AL

Aluminium alloy version of RM41, suitable for light loads only – black anodised. (Weight – 5.1g).

RM42

Swivel Clip for Jib and extra Halyard connections 5mm pin. (Weight – 32g).

RM43

Swivel unit with double 5mm Pin. Connecting blocks and Halyard Clips. (Weight – 22g).

RM44

Half Swivel with 5mm Pin used with 6mm Bolt for Jib Bowspit and Stem Fastening. (Weight – 10.3g).

RM45

Flat Top Swivel – 5mm diam. Pin general Sheet block fastenings. (Weight – 21g).

RM345

Swivel Deck Plate, 51mm square base with 4.7mm mounting holes, swivel pin 5mm diam. (Weight – 42g).
